

ALO CLINICALLY INTEGRATED NETWORK

North Carolina's
newest option for
independent
physicians is here.

The Alo CIN is a formal, physician-led, collaborative network committed to improving clinical quality and efficiency. The CIN gives independent physicians access to powerful tools and resources, to enhance their practices without giving up autonomy.

DESIGNED TO SUPPORT INDEPENDENT PRACTICES

As a busy physician, your time and resources are limited, making it challenging to analyze your data and assess your clinical performance compared to peers and industry averages. Likewise, finding opportunities to exchange best practices and explore top-tier referral options can be daunting. Enter the Alo CIN—a solution that addresses these challenges head-on.

Gain access to crucial data, advanced analytics, specialized education, and patient services, including behavioral health, psychiatry, chronic care management, and nutrition support.

Keep your existing Accountable Care Organization arrangements—the Alo CIN is designed to work either stand-alone or alongside existing ACOs.

We're here to level the playing field and strengthen your practice, preserving your autonomy throughout the journey.

STRENGTH IN NUMBERS

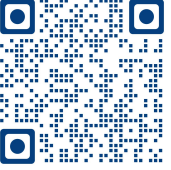

Joining the Alo CIN puts you in good company with like-minded peers across North Carolina who are committed to maintaining their independence.

MORE RESOURCES

Premium technology, data-sharing and clinical improvement programs help improve patient care and reduce provider burden.

GREATER VALUE

The Alo CIN allows independent practices to collectively contract with payors for rates that reflect the network's commitment to quality and efficiency improvements.
